SHOWS

WHAT'S WATT Ireland by Symmetry Circus

Join us on a whimsical journey with two eccentric inventors as they unveil their new-fangled, obtuse-angled, slightly mangled, kinetic motion machine. Featuring hula hooping, unicycling, escapology, juggling and side-splitting comedy.

TRAIT(S) France by Compagnie CSCOM

TRAIT(s) is an essay in graphic circus aimed at young audiences, offering a contemporary take on three circus fundamentals: the body, the family and the Circle. Inspired by the works of painters Joan Miro and Vassili Kandinsky, TRAIT(s) features a circus performer on a Cyr wheel. In form and content, from apparatus to circular public address, this show explores the circle in order to explore what circus is all about. In the rhythm of the gush of shapes and colors, under the action of the apparatus, circus movement is written and Drawn. TRAIT(s) is a show in which art is the material.

WORKSHOPS

CHAIN REACTIONS

An Introduction to Circus by Doulab for Circus and Dance. Explore a world of possibilities through circus in this action-packed workshop. (family - all ages)

"AG DAMHSA LEIS NA DATHANNA"

(Dancing with Colours) with Karla Sanchez. You will be encouraged to play & explore movement & mark making with natural elements and art materials. (family - all ages)

MOVEMENT FOR BABIES

Introduce your baby to a space filled with intuition, natural movement and carefully curated music in this workshop specially designed for the newest arrivals. (ages 0-6 months)

WHAT TO DO ON A RAINY DAY Ireland by Fernanda Ferrari

"What to Do on a Rainy Day" invites multilingual families to share a heartwarming and playful experience together. Blending storytelling, puppetry, and interactive play, this engaging performance follows Grace, a little girl who has just moved to Ireland. With the help of her new friends, Grace discovers the many ways to find joy, even when the skies are grey.

A WHOLE TRIP Argentina by Duo Patagonia

"A Whole Trip" is a visual journey through movement, humor, and emotion. Blending hand to hand acrobatics, physical theater, and dance, we tell the story of two travelers navigating the world with only their bodies, a map, road signs, and a GPS as guides. The piece is wordless and invites the audience to connect with the spirit of adventure and human connection.

AERIAL MOVEMENT

An Introduction to the World of Flying with Hannah Scully. Learn to fly on trapeze and silks with talented dance and circus artist Hannah Scully! (ages 8-12)

CREATIVE HULA HOOPING

Join Symmetry Circus artists for some hula hooping - learn the basics and some fancy moves to make a routine! (ages 7+)

LET'S PLAY!

Join theatre artist Casey Hallahan for this imaginative creative workshop. (ages 6-9)
